- Model Research Agreements
- IP in Research Contracts
- Various practical exercises and a Contracts Workshop
- Indemnities
- Negotiation

A buffet dinner with drinks will be provided on Monday and Tuesday evenings, with Wednesday being a free evening for delegates.

There are plenty of opportunities to network throughout the course.

IMPORTANT INFORMATION

To be awarded the allocated 20 continuing education credits towards your application to become a Registered Technology Transfer Professional (RTTP) ALL sessions must be attended.

It's important that you're able to commit to attending the whole course, so please do take this into account when making your travel plans. The three days culminate in a highly participative team negotiation exercise at the end that brings together much of the learning from the programme and allows you to put your knowledge into practice, in a zero-risk environment. Feedback from previous attendees shows that this exercise is particularly valued, as it is consistently rated as one of the most useful elements of the whole course.

RTTP

There are 20 RTTP points for this course.
